

PARTS REFERENCE LIST

**MODEL: LX-180/LX-200/
LX-900/LX-910D**

Aug., 2001

NOTES FOR USING THIS PARTS REFERENCE LIST

1. In the case of ordering parts, it needs mentioning the following items:

- (1) Code
- (2) Q'ty
- (3) Description
- (4) Symbol (PCB No., Revision , and Parts location mounted on the PCB.)

Note : No orders without Parts Code or Tool No. can be accepted.

[Example]

REF. NO.	SYMBOL	CODE	Q'TY	DESCRIPTION	REMARKS

Revision No. : marked on the printed circuit board.

B48J300 - 1 01 A

2. Design-changed parts:

When the parts are changed, any one of the following symbols is indicated in the REMARKS column.

- CHNG#A : compatible between old and new
- CHNG#B : replaceable from old to new
- CHNG#D : incompatible
- ADD : newly established

3. The original of this list was made based on the information available in Sep, 2000.

4. Parts are subject to change in design without prior notice.

[illegible]

This diagram illustrates the assembly of a mechanical component, likely a door latch or handle mechanism. The parts are numbered as follows:

- 1**: A long, cylindrical shaft or rod.
- 2**: A shorter, thicker cylindrical component, possibly a bush or sleeve.
- 3**: A small, rectangular plate or washer.
- 4**: A small, circular component, possibly a pin or washer.
- 5**: A small, curved component, possibly a spring or clip.
- 6**: A small, cylindrical component, possibly a pin or washer.
- 7**: A small, cylindrical component, possibly a pin or washer.
- 8**: A small, cylindrical component, possibly a pin or washer.
- 9**: A small, rectangular plate or washer.

The diagram shows the assembly process, with dashed lines indicating the alignment and placement of the components. The components are arranged in a linear fashion, with the shaft (1) passing through various bushings and plates (2, 3, 4, 5, 6, 7, 8, 9) to form a complete assembly.
